

CHIEF COMPLAINTS

Fever since 1 week
Vomiting since 1 week

HISTORY OF PRESENTING ILLNESS

Fever since 1 week moderate degree no chills no rigors decreases on medication recurs again after 2-3 hours
Excessive cry and irritability present since 2 days
1 episode of vomiting non projectile non bilious non blood tinged
Taken medication since 1 week no resolution of symptoms
Blood investigations showed dengue and was referred here for further management

No Pallor, Icterus, Cyanosis, Clubbing, Lymphadenopathy, Oedema

Microtia of left ear- EAC atresia

BP:90/60mmofHg

Pulse:96 /min

Temp:febrile

RR:22/min

LAB INVESTIGATION

14-06-2015 : Packed Cell Volume : 39.0%, Platelet Count : 112000/cumm, Serum Crp : 0.22mg/l, Serum Sodium : 141mEq/L, Serum Potassium : 4.37mEq/L, Serum Chloride : 104.7mEq/L, Serum Creatinine : 0.5mg/dl, Serum Ast (Sgot) : 123IU/L, Serum Alt (Sgpt) : 56IU/L, **Dengue Rapid (Ns1, Igm, Igg)** NS1 ANTIGEN POSITIVE, IgM ANTIBODY : NEGATIVE, IgG ANTIBODY : NEGATIVE, COMMENTS : This is only a screening test. Detectable antibody levels may be low in early infection. Please confirm by ELISA., **Widal** Salmonella Typhi O Antibody Titer NEGATIVE (<20), Salmonella Typhi H Antibody Titer : NEGATIVE (<20), Salmonella Paratyphi A H Antibody Titer : NEGATIVE (<20), Salmonella Paratyphi B H Antibody Titer : NEGATIVE (<20), COMMENTS : No antibodies against S.Typhi, S.paratyphi A and S.Paratyphi B detected in the serum.,

15-06-2015 : Packed Cell Volume : 38.7%, Platelet Count : 113000/cumm,

16-06-2015 : Packed Cell Volume : 40.0%, Platelet Count : 192000/cumm,

17-06-2015 : Platelet Count : 267000/cumm, Packed Cell Volume : 38.2%,

18-06-2015 : Platelet Count : 330000/cumm, Packed Cell Volume : 37.4%,

REFERRAL

ENT reference was given for microtia of left ear- Advised for HRCT temporal bone

Audiology- Right DPOAE present, suggestive of normal outer hair cells function, left ear EAC atresia.

TREATMENT

SYP DOLO(250mg/5ml) 3.5 ml SOS
